AJE Annual Publishing Review

A brief look at current publication trends, popular areas of study, and the journals and institutions with the most publications.

Top 5 Areas of Study by number of Publications

- Medicine
- Engineering
- Biochemistry, Genetics and Molecular Biology
- Physics and Astronomy
- Chemistry

Top 5 Journals by number of Publications

- Scientific Reports
- PLOS ONE
- RSC Advances
- International Journal of Applied Engineering Research
- Physical Review B

Top 5 Institutions by number of Publications

1. Tsinghua University - CHINA
2. Chinese Academy of Sciences - CHINA
3. Universidade de São Paulo - BRAZIL
4. Zhejiang University - CHINA
5. University of Toronto - CANADA

Looking Back: The Last Decade of Research Publishing

- In 2015, nearly 2 million articles published worldwide
- China a key source of growth with an increase of nearly 9% 2014-2015

The number of papers published continues to grow as research programs expand worldwide.

Top Publishing Countries in 2015

1. United States
2. China
3. United Kingdom
4. Germany
5. India

Looking Back: The Last Decade of Research Publishing

- Asia and other emerging markets showed strong growth.
- Medical fields were a strong driver of worldwide growth.

Growth in number of papers published fueled by worldwide expansion of research programs.

84% increase in publications, 2005 - 2015

America Journal Experts (AJE) has helped thousands of international researchers to eliminate language barriers and get their work published in the best journals in the world.

Our editors are researchers themselves, so we understand the importance of publication and can help authors navigate the often-difficult publication process.
